

5010/Airport Safety Self-Inspection Training Course

CERTIFICATE OF COMPLETION

November 6th & 7th, 2018

STACEY JUSTESEN

Successfully completed the 5010/Airport Safety Self-Inspection Training Course providing general guidance and information for airport owners and operators in managing an airport safety self-inspection program which correlates to the data presented in the Federal Aviation Administration's 5010 Airport Master Record. Training was received in the following:

- Paved, Unpaved, and Safety Areas (Data Elements 30-39)
- Lighting, Markings, and Signs (Data Elements 40-49)
- Obstructions (Data Elements 50-58)
- NAVAIDS (Data Elements 80-85)
- Wildlife Hazards (Conditional Remarks)
- Fueling Operations (Data Element 70)
- Airport Safety Self-Inspection Best Practices
